TECHNOMELT Edgebanding Excellence & Expertise from Kenyon Group

The Technomelt range of hot melt adhesives for edgebanding and lipping give you outstanding performance and runnability, whatever your machine type. The Kenyon team have extensive experience and we have fostered close relationships with leading machine manufacturers.

Technomelt KS 351 is a widely used hot melt adhesive for edgebanding and lipping. Our most popular choice, its reliable performance means that you get great results time and time again.

Technomelt KS 928 is a Polyolefin (PO) based hot melt adhesive for edgebanding, offering higher levels of performance and near-invisible glue lines. If you are looking for a luxurious finish, then Technomelt KS 928 is the one for you.

Technomelt PUR 270/7 and Technomelt ME 260/1 take performance to the next level. Extreme temperature and moisture resistance? Discreet glue lines? No problem at all, these products deliver. Available in a range of different packs – including granules.

Plus, with the Technomelt ME range of adhesives, there is the reassurance of the safest products available in the industry.

Cleaners to help you run more smoothly

Technomelt Easy Flow Cleaner is an exceptional cleaner for all hot melt adhesive types, including PUR. Technomelt Easy Flow Cleaner doesn't just purge your system; it really softens and clears deposits within your complete hot melt system.

GARD PC800 is a three-in-one cleaner, anti-static and release agent for edgebanding machines. You can replace *three* different products with one simple solution.

Technomelt Melt-O-Clean is a citrus based cleaner for removing hot melt deposits from surfaces. It can also be used as a soak for parts such as nozzles.

Technomelt PUR Cleaners 2 and 4 are cleaners and purging agents which are available in a range of convenient pack sizes to fit your machine. They are designed to help you flush out your system and leave it is a 'safe' state, avoiding curing of PUR adhesives.

At Kenyon Group we have the expertise to help you with your edgebanding and lipping process. We also have a full range of adhesives for woodworking as well as solutions for packaging too, so please get in touch with us, we are ready to help.
