TUSKBOND

Tuskbond adhesive solutions, brought to you by Kenyon Group for all of your bonding challenges in the furniture, woodworking and construction industries

Direct Adhesives TECHNOMELT GARD kenyon GROUP LTD

Tuskbond Adhesives for Woodworking Applications

Kenyon Group have a comprehensive range of options for the woodworker, furniture maker or builder. Tuskbond products are the first choice for many applications including laminating and bonding for furniture, contract flooring and general construction.

Combined with our other offerings and our teams' extensive experience, we are proud and confident to say that if it needs to be glued, we can help.

Here is a sample of some of the key products in the Tuskbond adhesive range.

Tuskbond ONE – Multipurpose Sprayable Contact Adhesive

Tuskbond ONE is a low odour, fast drying contact adhesive made in the UK for 15 years. Suitable for bonding a wide variety of products, Tuskbond ONE provides good temerature resistance, long open time with a Class O fire rating. ONE's incredible grab and high bond strength reduce the need for mechanical fixings when manufacturing thicker worktops. Tuskbond ONE is a high performance product suitable for bonding veneers, HPL and almost all decorative laminates to MDF, chipboard and many other substrates.

Features
Building Regulations: Class O
Excellent grab
Exceptional bond strength
Long open time
Versatile

Key substrates
Veneers, HPL, Decorative Laminates, MDF, Chipboard, Plywood, Leather, Laminates and Plastics

Certificates
Tested to BS476 Part 6 -Pass/ Part 7 Class 1
Building regulations: Class O
Wheelmark accredited
SAFT heat tested 100°C

Available in 17 kg canisters and 500ml aerosol
Made in Britain

Tuskbond XPRO – The next generation of contact adhesives

Tuskbond XPRO uses the latest solvent technology for minimal toxicity, meaning low hazard to your health. Possessing the best qualities of Tuskbond ONE, XPRO provides incredible grab, high bond strength and excellent heat resistance. Easy to apply and combines a long open time with a very fast drying time. XPRO is a high performance product suitable for bonding veneers, HPL and almost all decorative laminates to MDF, Chipboard and many other substrates. Its pressure sensitive properties make it ideal for a wide variety of substrates.

Features
Excellent grab
Innovative solvent technology
Excellent bond strength
Long open time
Fast drying

Key substrates
Plywood, veneers, MDF, Chipboard, Leather, Laminates, Plastics, Foil Faced Insulation and Mineral Wool Based Insulation

Certificates
SAFT heat tested to 100°C

Available in 13 kg canisters and 500ml aerosol
Made in Britain

Tuskbond NC501 – Premium Non-Chlorinated Contact Adhesive

Tuskbond NC501 is a premium non-chlorinated contact adhesive with extremely high solids contact, greatly reducing the risk of low coat weight. NC501 provides a superior bond, excellent grab and long open time. NC501 is versatile and will bond a wide variety of substrates.

Features
Non Chlorinated system
Exceptional grab
High solids
Excellent bond strength
Long open time
Versatile

Key substrates
Plywood, Leather, Laminates, Foams, Fabrics and Plastics

Certificates
Wheelmark accredited
SAFT heat tested 100°C

Available in 13.6 kg canisters and 500ml aerosol
Made in Britain

Tuskbond FD170 – Fast drying polystyrene adhesive

Tuskbond FD170 polystyrene adhesive is a high-solids, extremely tacky spray adhesive free from all chlorinated solvents.

The fast-drying adhesive is developed for bonding polystyrene to itself and various substrates including chipboard, MDF, plywood and cardboard.

Features
Non Chlorinated
Extremely tacky
High solids formulation
Fast drying
Long open time

Key substrates
Polystyrene, Corian, solid surface, MDF

Certificates
SAFT heat tested 70°C

Available in 13 kg canisters and 500ml aerosol
Made in Britain

Tuskbond G500 – Premium High Solids Contact Adhesive

Tuskbond G500 premium sprayable contact adhesive with extremely high solids content. It provides superior bond strength with excellent grab and heat resistance. G500 is suitable for bonding almost all decorative face laminates to a variety of other substrates including chipboard, plywood and MDF. G500 is suited for bonding curved structures.

Features
Extremely high solids
Excellent grab
Superior bond strength
Long open time
Fast drying

Key substrates
Flexible Ply, Chipboard, MDF, Wood Laminates, Multiple Wood Build Ups, Metals, Foil Faced Insulation, Mineral Wool Based Insulation, Fabrics and Foam

Certificates
Tested to BS476 Part 6 Pass/ Part 7 Class 1
Building regulations: Class O
Wheelmark Accredited
SAFT heat tested 105c

Available in 17 kilo canisters and 500ml aerosol
Made in Britain

Tuskbond HH550 – High Heat Resistance, Multipurpose Sprayable Adhesive

Tuskbond HH550 is a high heat sprayable contact adhesive with heat resistance over 105c. HH550 provides a strong and resilient bond between decorative surfaces. Suitable for bonding HPL, GRP and aluminium to MDF, chipboard and many other substrates. HH550 has a long open time and provides a fast strong and permanent bond.

Features
High heat resistance
Long open time
Excellent bond strength

Key substrates
Automotive, leather, foam, wood, metals, plastics, fabrics, foams, low density fibrous insulation

Certificates
SAFT heat tested 105c

Available in 17 kilo canisters and 500ml aerosol
Made in Britain

Direct Adhesives TECHNOMELT GARD kenyon GROUP LTD

Tuskbond HGL 100 – Mist/Pebble spray adhesive

Tuskbond HGL 100 is the choice when bonding high gloss decorative laminates, specifically designed to give a pebble spray pattern. This is critical when bonding high gloss laminates to a variety of substrates including plywood, chipboard and MDF. Tuskbond HGL 100 provides instant garb and excellent high heat resistance, whilst achieving excellent bond strength.

Feature
Strong initial grab
Excellent bond strength
High heat resistance
Mist/Pebble – eliminating telegraphing
Formulated for high gloss laminates

Key substates
High Gloss Laminates
Laminates
Veneers

Certificates
SAFT heat tested 100c

Available in 14 kilo canister and 500ml aerosol.
Made in Britain

Tuskbond Citrus Cleaner

Tuskbond Citrus Cleaner 500ml Spray is powerful, high performance cleaning solvent, consisting of naturally occurring terpenes extracted from oranges.

Tuskbond Citrus Cleaner 500ml Spray can be used as an alternative to cleaning solvents such as mineral spirits, methyl ethyl ketone, acetone, toluene, glycol ethers, and chlorinated organic solvents.

- Powerful Adhesive and Grease Remover
- Dissolves Adhesive Leaving a 100% Clean Finish
- Citrus Scent

Direct Adhesives TECHNOMELT GARD kenyon GROUP LTD

At Kenyon Group we have the expertise to help you with all of your adhesive requirements.

We also have many other adhesive options in a range of technologies – water based, hot melt and PUR, as well as solutions for any packaging needs that you may have, so please get in touch with us, we are ready to help.

What can you glue with our range of adhesives? Have a gluing problem, don't come unstuck, challenge our glue experts call 0161 627 1001
